HOW OFTEN ARE VALUATIONS AVAILABLE?

The Fund is valued on each Dealing Day. The price per Share of all Share Classes is quoted on a forward-pricing basis, and is normally available on the website <http://www.fullertonfund.com> within two (2) Business Days of the actual transaction dates and may also be available on Bloomberg and SIX Telekurs. You may also request for the indicative price per Share from the Singapore Representative (where not available as stated above). To counter dilution and protect investors' interest, the Fund may apply a technique known as swing pricing or dilution adjustment of up to 2% of the NAV as part of its valuation policy.

Refer to paragraphs 9 and 11 on pages [25] and [28] of the Singapore Prospectus for further information on valuation and exiting from the product.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- You can redeem your Shares on any Dealing Day by submitting a written redemption request through the Singapore Representative's approved distributors or other appointed agents.
- Redemption proceeds are normally paid in the currency of the relevant Share Class within three (3) Business Days from the Dealing Day on which the redemption request is received and processed by the Administrator.
- Your redemption price is determined as follows:
 - If you submit your redemption request by 5pm Singapore time on a Dealing Day, you will be paid a price based on the NAV per Share determined on that Dealing Day.
 - If you submit your redemption request after 5pm Singapore time on a Dealing Day your request shall be treated as having been received on the next Dealing Day.
 - Redemption requests sent to approved distributors may be subject to an earlier dealing cut-off time. Please check with the relevant distributor for details.
- The net redemption proceeds that you will receive will be the redemption price per Share multiplied by the number of Shares redeemed, less any charges. An example is as follows:

1,000.00 Shares		USD 1.000		USD 1,000.00
Your redemption request	x	NAV per Share	=	Gross redemption proceeds
