Investment Strategy	
<ul style="list-style-type: none"> • The Fund invests in fixed income or debt securities denominated primarily in US Dollars and Asian currencies, issued by companies, governments, quasi-governments, government agencies or supnationals in the Asian region. • The Investment Manager intends to adopt a combination of top-down macro research for duration or interest rate management and sector allocation, and bottom-up analysis for credit selection and yield curve positioning. • The Fund may use FDIs as part of the investment strategy, in addition to efficient portfolio management and hedging purposes. 	<p>Refer to paragraph 3 on page [12] of the Singapore Prospectus for further information on the investment strategy of the product.</p>
Parties Involved	
<p>WHO ARE YOU INVESTING WITH?</p> <ul style="list-style-type: none"> • The Management Company is Lemanik Asset Management S.A. • The Investment Manager and Singapore Representative is Fullerton Fund Management Company Ltd. • The Depository Bank is BNP Paribas Securities Services, Luxembourg Branch. 	<p>Refer to paragraph 2 on page [7] of the Singapore Prospectus for further information on their roles and responsibilities.</p>
KEY RISKS	
<p>WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the product and its distributions may rise or fall. You should consider the risks of investing in the Fund, which are detailed in the Singapore Prospectus. Generally, some of the risk factors that should be considered are market, credit, liquidity, product-specific and other risks. These risk factors, some of which are set out below, may cause you to lose some or all of your investment.</p>	<p>Refer to paragraph 5 on page [18] of the Singapore Prospectus for further information on risks of the product.</p>
Market and Credit Risks	
<ul style="list-style-type: none"> • You are exposed to the risk of investing in emerging and less developed markets. <ul style="list-style-type: none"> ○ The legal, judicial and regulatory infrastructure of such markets is still developing and there is much legal uncertainty. • You are exposed to political, regulatory and economic risks. <ul style="list-style-type: none"> ○ Economic and/or political instability could lead to legal, fiscal and regulatory changes. Taxes or exchange controls can be imposed suddenly. Assets could be compulsorily re-acquired without adequate compensation. Inflation and deflation may result in a decline in the value of the Fund's portfolio. ○ Tax law and practice in certain countries is not clearly established. Additional taxation that is not anticipated when investments are made, valued or disposed of may be imposed. • You are exposed to market custody and settlement risks. <ul style="list-style-type: none"> ○ Securities markets in some countries lack the liquidity, efficiency and regulatory controls of more developed markets. Provisions for custody and legal/beneficial interests and settlement procedures may be less developed than more mature markets. Depository Bank and sub-custodians may default. The Fund may be affected by inability to repatriate income, capital or sale proceeds. • You are exposed to credit risks. <ul style="list-style-type: none"> ○ The issuer of securities and counterparties to transactions may default on their obligations. ○ Credit ratings of an investment are largely based on historical information and may not reflect current financial, volatility or liquidity conditions. ○ Lower rated, higher yielding debt securities are subject to greater market and credit risks than higher rated securities. • You are exposed to interest rate risks. <ul style="list-style-type: none"> ○ Values of bonds and other debt instruments usually rise and fall in response to changes in interest rates. 	

<ul style="list-style-type: none"> ● You are exposed to exchange rate risks. <ul style="list-style-type: none"> ○ The Fund's investments may be denominated in different currencies and affected by exchange rate fluctuations. ○ The Fund and certain Share Classes are not denominated in the Singapore Dollar and investors may be exposed to exchange rate risks. The Investment Manager may not fully hedge the foreign currency exposure, although it may have the discretion to do so. ● You are exposed to currency control risks. <ul style="list-style-type: none"> ○ Certain Asian currencies are not freely convertible and are subject to foreign exchange control policies and repatriation restrictions. The Fund's investments may also be affected by changes in currency and exchange control policies and regulations. ● You are exposed to risks arising from the withdrawal of UK from EU. <ul style="list-style-type: none"> ○ The withdrawal of UK from EU is likely to lead to ongoing political and economic uncertainty and periods of exacerbated volatility in the UK and the European and global markets. This may have an adverse effect on the economy generally and on the ability of the Fund to execute its strategy and to generate attractive returns. Currency volatility and the potential downgrading of the UK's sovereign credit rating, may also have an impact on performance. 													
Liquidity Risks													
<ul style="list-style-type: none"> ● The Fund is not listed and you can redeem only on Dealing Days via the Singapore Representative or approved distributors. There is no secondary market for the Fund. 													
Product-Specific Risks													
<ul style="list-style-type: none"> ● You are exposed to derivatives risk. <ul style="list-style-type: none"> ○ The Fund may use FDIs and these investments carry their own specific risks. Certain investments may be subject to greater volatility, counterparty risks and higher degree of risks. Further, futures transactions may be "leveraged" or "geared". ● You are exposed to the risk of investing in asset backed securities (ABS) and mortgage backed securities (MBS). <ul style="list-style-type: none"> ○ The Fund may invest in ABS and MBS, which may be highly illiquid and therefore prone to substantial price volatility. ● You are exposed to non-investment grade securities risks. <ul style="list-style-type: none"> ○ Issuers of non-investment grade securities are exposed to adverse business, financial or economic conditions, which could lead to non-payment of interest and principal. Prices of non-investment grade securities may be affected by individual corporate developments, economic conditions and illiquid markets to a greater extent than investment grade securities. ● You are exposed to China interbank bond market risks. <ul style="list-style-type: none"> ○ The China interbank bond market is an OTC market in development with smaller market capitalisation and trading volume compared to more developed markets. This means higher volatility and spread prices, and exposure to higher settlement, counterparty and regulatory risks. 													
FEES AND CHARGES													
<p>WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT?</p> <p><u>Payable directly by you:</u></p> <ul style="list-style-type: none"> ● You will need to pay the following fees and charges: <table border="1" data-bbox="193 1756 1102 1944"> <thead> <tr> <th style="background-color: #d9ead3;">Share Class</th> <th style="background-color: #d9ead3;">Class A</th> <th style="background-color: #d9ead3;">Class I</th> <th style="background-color: #d9ead3;">Class R</th> </tr> </thead> <tbody> <tr> <td>Initial Charge (% of the subscription amount)</td> <td colspan="3" style="text-align: center;">Up to 5%</td> </tr> <tr> <td>Redemption Charge (based on the NAV per Share)</td> <td colspan="3" style="text-align: center;">Up to 2%, currently none</td> </tr> </tbody> </table> <p>You may need to pay other fees and charges to the relevant distributor.</p> <p><u>Payable by the Fund from invested proceeds:</u></p> <ul style="list-style-type: none"> ● The Fund will pay the following fees and charges to the Management Company, the Investment Manager and other parties: 	Share Class	Class A	Class I	Class R	Initial Charge (% of the subscription amount)	Up to 5%			Redemption Charge (based on the NAV per Share)	Up to 2%, currently none			<p>Refer to paragraph 4 on page [16] of the Singapore Prospectus for further information on fees and charges.</p>

Other fees and expenses may be payable by the Fund.

VALUATIONS AND EXITING FROM THIS INVESTMENT

HOW OFTEN ARE VALUATIONS AVAILABLE?

The Fund is valued on each Dealing Day. The price per Share of all Share Classes is quoted on a forward-pricing basis, and is normally available on the website <http://www.fullertonfund.com> within two (2) Business Days of the actual transaction dates and may also be available on Bloomberg and SIX Telekurs. You may also request for the indicative price per Share from the Singapore Representative (where not available as stated above). To counter dilution and protect investors' interest, the Fund may apply a technique known as swing pricing or dilution adjustment of up to 2% of the NAV as part of its valuation policy.

Refer to paragraphs 9 and 11 on pages [25] and [28] of the Singapore Prospectus for further information on valuation and exiting from the product.

HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO?

- You can redeem your Shares on any Dealing Day by submitting a written redemption request through the Singapore Representative's approved distributors or other appointed agents.
- Redemption proceeds are normally paid in the currency of the relevant Share Class within three (3) Business Days from the Dealing Day on which the redemption request is received and processed by the Administrator.
- Your redemption price is determined as follows:
 - If you submit your redemption request by 5pm Singapore time on a Dealing Day, you will be paid a price based on the NAV per Share determined on that Dealing Day.
 - If you submit your redemption request after 5pm Singapore time on a Dealing Day your request shall be treated as having been received on the next Dealing Day.
 - Redemption requests sent to approved distributors may be subject to an earlier dealing cut-off time. Please check with the relevant distributor for details.
- The net redemption proceeds that you will receive will be the redemption price per Share multiplied by the number of Shares redeemed, less any charges. An example is as follows:

1,000.00 Shares		USD 1.000	=	USD 1,000.00
Your redemption request	x	NAV per Share	=	Gross redemption proceeds
USD 1,000.00		USD 20.00	=	USD 980.00
Gross redemption proceeds	-	Redemption Charge (2%)	=	Net redemption proceeds
